Questions??

Riverview Middle School

Registration will begin April 3, 2018

Summer School is an extension of the current school year – please register your child for classes according to the grade they completed this current school year.

Smooth Start to Summer School....A Self-Guided Tour

On **Wed., June 13th (3:00-6:00pm)** and **Thurs., June 14 (1:00-4:00 pm)** you are invited to:

- Ease into Summer School by taking a self-guided tour of Plymouth High School to assist your child in finding their classrooms.
(National Honor Society students will be available if tours are needed)
- Bring along a final copy of your child's class schedule to help locate classes.
- Ask any questions you might have regarding bussing or class schedules.

Enrolling Students with Special Needs.....

Student with special needs who enroll in Summer School classes must register as other students do.

- Please be sure to select the appropriate **Home Based** course as one of your student's course selections.
- Before the school year ends, with your permission, your child's special education teacher will forward IEP information to the special education summer school coordinator who will communicate with the summer school teachers.
- Please notify your child's special education teacher if you enroll in summer school and indicate the classes your child is taking.

2018 Summer School Course Description

PHS
SS

#163 EVERYDAY CHEMISTRY I

(GRADES 3-5) 45 MINUTES

#263 EVERYDAY CHEMISTRY II

(GRADES 6-8) 45 MINUTES

Have you ever considered the number of chemical reactions that occur around and within you? Do you realize that chemical properties are evident when you cook, bathe, eat, ride in a car, or even breathe? In this hands-on, lab based class students will investigate the chemical concepts that explain many of the things that happen to them every day. Students will explore simple chemicals, like air and water, as well as more complex ones like carbohydrates and soaps. In addition to everyday chemistry, students will also become familiar with laboratory techniques and safety. Get ready for an adventure into the fabulous world of chemistry.

#166 PROJECT WILD AND PROJECT WILD AQUATIC

(GRADES 3-6) 45 MINUTES

PHS

The program emphasizes wildlife because of their intrinsic, ecological value, as well as their role in teaching how ecosystems function. In the face of competing needs and pressures affecting the quality and sustainability of life on earth, Project WILD addresses the need for human beings to develop as responsible citizens of our planet. It is based on the premise that young people have a vital interest in learning about our natural world. The goal of Project WILD is to assist learners of any age in developing awareness, knowledge, skills, and commitment resulting from informed decisions, responsible behavior, and constructive actions concerning wildlife and the environment which all life depends on.

#165 SCIENCE IN MOTION

(GRADES 5-8) 45 MINUTES

PHS

Physics explains to us the rules for how the world works, and this class offers the chance for young, inquiring minds to learn the fundamentals early. There will be nothing but action as students explore the laws of physics in motion with experiments sure to delight. Students will test their intellect and ingenuity as they attempt to solve real world problems. Topics include Newton's Laws of Motion, Gravity, Momentum, and Energy. Demonstrations, lab experiments and projects, along with hands-on exploration are emphasized.

#169 GEOCACHING

(GRADES 3-8) 45 MINUTES

PHS

Geocaching is an outdoor treasure-hunting game in which participants use a Global Positioning System (GPS) receiver to hide and seek containers, called caches, anywhere in the world. Students will learn to find and retrieve caches along with hiding a few in the Plymouth area!!

2018 Summer School Course Description

#171 SCIENCE OF FLIGHT I

(GRADES 3-5) 45 MINUTES

#271 SCIENCE OF FLIGHT II

(GRADES 6-8) 45 MINUTES

Students will build at least 3 different flying machines (kites, model planes, and rockets) and fly their creations. Students will learn and apply the science that makes flight possible, understand and select appropriate materials, and learn building and assembly techniques that will enable them to be successful with design and construction.

#174 COMPUTER SCIENCE – GRAPHICS AND ANIMATION

(GRADES 3-8) 45 MINUTES

Students will have fun learning how to create computer programs that draw and animate 3-dimensional worlds. Logo software will be used to create geometric shapes and drawings while “Alice” software will be used to create 3-dimensional animations

#172 LEGO ROBOTS

(GRADES 4-8) 45 MINUTES

Students will have fun learning how to build and run LEGO robots. Students will start by building a programmable robot out of LEGOs and will progress to programming the robot with special software to move and react to the world.

#175 INTRODUCTORY KEYBOARDING 1

(GRADES 3-5) 45 MINUTES

This course will familiarize students with keyboards, an essential skill in working on computers. Students will be practicing and learning skills through the use of computer software.

#173 COMPUTER GAME DESIGN

(GRADES 6-8) 45 MINUTES

Learn how to design video games for your computer! Students will have fun creating computer games using Game Maker software. In the process of constructing these games, students will learn important computer programming concepts, problem solving skills, and game theory. Games will range from action and adventure to puzzle games.

176 INTRODUCTORY KEYBOARDING 2

(GRADES 6-11) 45 MINUTES

This course will familiarize students with keyboards, an essential skill in working on computers. Students will be practicing and learning skills through the use of computer software.

2018 Summer School Course Description

#177 ART EXTRAVAGANZA

PHS

(GRADES 1-4) 90 MINUTES Students will focus their imagination and creativity on summer-related themes as they create art projects in all different mediums.

#179 PAPIER MACHE' CREATIONS I

(GRADES 1-3) 90 MINUTES

#180 PAPIER MACHE' CREATIONS II

(GRADES 4-6) 90 MINUTES

Students will discover the many facets of the medium, papier mache'. Projects will be more complex and students will become masters of the medium, concentrating on animal forms.

#182 PHOTOGRAPHY ART

(GRADES 3-8) 45 MINUTES

Students will explore photography as a tool to create a variety of photography related art projects. Students are welcome to use a school's digital camera or use their own digital camera or device to complete the photography portion of each class project.

178 Needle Art

(GRADES 4-6) 45 MINUTES

NEW This course is designed to teach beginners the basics of knitting and crocheting but will also benefit those that have knitting and crocheting experience as a refresher class. Whether you have experience or not, this class is for you.

#191 DRAMA 1

(GRADES 1-2) 90 MINUTES

#192 DRAMA 2

(GRADES 3-4) 90 MINUTES

Students will experience drama through acting games, pantomime, skits, and plays, participate in an audition, and more.

#189 MUSICAL THEATRE I

(GRADES 3-5) 90 MINUTES

#190 MUSICAL THEATRE II

(GRADES 6-9) 90 MINUTES

In this class students will work with directors to produce a short musical. Students will be needed for all aspects of a musical production: actors, singers, dancers and stage crew members. Culmination of the class will be a presentation of a thirty minute musical. No experience is required.

#193 Drums Alive

(GRADES 3-5) 45 minutes

Drums Alive will take a combination of movement with powerful beat and the rhythms of drumming to provide an amazing brain and body workout. Students will learn a common language as we explore drumming and movement. Students will also discover the thrill of expressing inner creativity! The dynamic movements will range from beginner to more complex as time progresses. No prior knowledge is accepted and encouraged! Bring water bottles, comfortable clothes and shoes.

2018 Summer School Course Description

#184 PLAYING PIANO

(GRADES 1-5) 45 MINUTES

If you've always wondered what all those black and white keys on a piano can do, then this class is for you! Students will learn to play the piano/keyboard, play games designed to reinforce musical concepts and perform a recital for parents at the end of the session.

PHS

#116 RUN FOR FUN! I

(GRADES 1-3) 45 MINUTES

#117 RUN FOR FUN! II

(GRADES 4-6) 45 MINUTES

This class is designed to encourage students to be active thru many different fun running activities. General stretching, good running form and an introduction to some track and field events will be part of the class. Scavenger runs, creative relays and a variety of activities designed to keep students active will be the focus. Students should dress in comfortable running clothes and tennis shoes. A water bottle is recommended.

PHS

#186 FITNESS GAMES

(GRADES 1-3) 45 MINUTES

Students will be able to participate in a wide variety of age appropriate game and skill building activities. Each activity is designed to promote skill and fitness development.

PHS

#119 LET'S GO CAMPING

(GRADES 1-4) 45 MINUTES

In this class you will learn about and experience a variety of activities that are associated with camping. This may include tent building, making camp food, hiking, crafts and many more activities.

PHS

#120 DANCE MANIA I

(GRADES 1-4) 45 MINUTES

#220 DANCE MANIA II

(GRADES 5-8) 45 MINUTES

Dance Mania is an exciting dance team program designed for any level dancer. The program offers training in dance team technique and performance skills. Students will learn specialized dance routines while building self-confidence and positive sportsmanship through team building activities. The class will culminate with an in house sharing of routines where family and friends can support their budding young dancer.

PHS

#115 SWIM LESSONS

(GRADES 1-8) 45 MINUTES

Swimming lessons are taught with the American Red Cross method of progressive swim lessons. Each student will be placed in a swimming class based on their individual swimming ability. All teachers are WSI certified. Students MUST BE 50 INCHES TALL - NO EXCEPTIONS. Level 1; Level 2; Level 3; Level 4; Level 5; Level 6

PHS

NEW

2018 Summer School Course Description

#118 RECREATIONAL SPORTS I

(GRADES 1-4) 45 MINUTES

PHS

#218 RECREATIONAL SPORTS II

(GRADES 5-8) 45 MINUTES

This course is an outdoor sports class. Students will learn game strategies and team play. Games that will be played will encourage students to cooperate with each other and teach team building skills.

#124 GOLF
